- CSS
- BOOTSTRAP
- FIGMA
- TAILWIND - CSS
- MUI
- REACT
- JAVASCRIPT
- NODE (EXPRESS)
- MONGO-DB
- RESPONSIVE DESIGN
- REST API
- FIREBASE

## Education

Hsc candidate, Hazi Mohammed  
Mohsin college. -present.  
Nasirabad Boys High School , SSC  
2019.

Languages : English , Bengali .

## Projects

1. **CarHub** : Live site - [Click](#) || Client Side : [Click](#) || Server Side : [Click](#)
  - This is a car-selling demo website.
  - Here I have used React and Node with MongoDB. For security, we have used Firebase as well.
  - This is totally responsive and I have added an admin panel here for the admin.

2. **TourHack** : Live site - [Click](#) || Client Side : [Click](#) || Server Side : [Click](#)

- This is a tour site for tourists.
- I have made this using React, MUI, Node, Express, MongoDB, Firebase, etc. Anyone can book here tour packages.
- This is totally responsive and well organized.

3. **Tech Website**: Live Site - [Click](#) || Client Side : [Click](#)

- This is a tech course-related website.
- This is responsive, well organized.
- This is made using only frontend tools, I did not use any backend tools for this website.
